Treatment	PLN, Złoty	ca.NOK*	ca. EUR*
"Implantology"			
Remarks : An implant root could be set on the place of an extracted tooth not earlier than 5-6 months after an extraction. After the setting of an implant root there has to be respected an healing and integration time to the jawbone of around 3 months (lower jaw) and 4-6 months (upper jaw). Therefore the whole implantation treatment will make two visits in Gdansk necessary.			
The total price of an implant is including the implant root, surgical work, dental technician work, standard Titan implant abutment and standard porcelain crown and is mentioned here for your price comparison :			
System Alpha Bio (Israel)	4200-4800	9660-11040	1008-1152
System Straumann (Switzerland/Germany)	5000-5800	11500-13340	1200-1392
System Nobel Biocare (Sweden)	4800-5600	11040-12880	1152-1344
Other systems	on request		
First visit : 1-3 days			
One Dental Implant (implant root, including surgical work, x-ray, bedøvelse)			
System Alpha Bio (Israel)	2400-2500	5520-5750	576-600
System Straumann (Switzerland/Germany)	2800-3000	8960-6900	672-720
System Nobel Biocare (Sweden)	2400-2500	5520-5750	576-600
Other systems	on request		
Second visit : 4-6 working days, depending on the amount of implants and on the chosen material for crowns.			
Standard abutment Titan, Alpha Bio	550-600	1265-1380	132-144

Prices are depending on the actual situation of the patient and treatment plan discussed with the dentist after the first examination.

Tannleger, Overlege Project Smile:
Igor Foltyn, Msc. in Oral Implantology Gdansk 25.01.2018

Important notes :

It could occur that you will see the prices offered in this price-list and then after checking the Polish version of the clinic you could recognize some small price differences.

That's easy to understand :

From your dentist at home you will maybe know the problem:

You will be treated in the dentist office for half an Hour, maybe an Hour, and then the dentist will tell you "That's it for Today, I will see you next week again...."

In this way your treatment could last for several weeks or even several months.

Additionally you will be often charged for each visit with strange fees like for "Hygienetiltak...".

We offer a different kind of concept and timetable.

Even "big" treatments should be possible to finish in a short time for our guests.

Our dentists and specialists will take their time to take care of you.

But it needs some efforts to organize our schedules according to your needs.

Our clinic, our specialists and dentists should be prepared for your visit:

- Appointments in our clinic have to be adjusted to the short time a patient from abroad could stay in Town.
- English speaking dentists will have to change their timetables according to the needs of the patient.
- Dental surgeons or dedicated specialists for endodontics or prosthetics should be available especially for you, even it would not exactly be known what dental problems you have..
- Dental technicians have to be instructed and often additionally paid for preparing crowns,bridges or dentures in the short given time.

- Many positions of an offer should be paid extra by Polish patients, which are generally included in the prices for patients from abroad.

Examples:

- The examination, consultation, and the preparing of an offer or a treatment plan is for free for you.
- The removal of old crowns and bridges will not be charged.
- Local Anesthesia is included.
- Taking several x-rays, panoramic x-rays as well as "small", "per apical" x-rays is included.
Of course we can send you all your x-rays per email or we will give you a CD with the files.
- Temporary crowns and fillings will not be charged if needed within the time of your stay in Gdansk,

Especially for patients from Norway :

Patients in Norway are often charged by their dentists for several price positions which are for free in our clinic:

- "Hygienetiltak / Hygiene tillegg" (oppdeking,engangsmateriell) for each visit.
What a nonsense, it belongs to the basic duties of a dentist to keep his instruments sterilized.
In no way you will be charged extra for this by PROJECT SMILE.
- "Timespris/Timehonorar"
No, if a special treatment like a surgery will last longer, then it is in this way.
It will take the time what is necessary to finish the treatment in a successfully way without any extra charges.

- A documentation of the treatment has to be prepared by the dentists in certain cases for getting a refund from **HELFO**.
- The prescription of medicaments like antibiotics or painkillers will not be charged.

and so on....
